- No

Is there natural shelter on the land?

- Yes
- No

Is there a constant fresh water supply available at all times to which the animal will have permanent access?

- Yes
- No

If not, please explain your alternatives below:

Thank you for your interest and valued support.

Please read the agreement on the next page and indicate if you are happy with the content.

I hereby undertake with the said Society (The Sathya Sai Sanctuary Trust for Nature) as follows to:

- Feed, stable and attend the equine to the Society's satisfaction.
- Provide adequate and appropriate pasture, with safe and secure fencing, for the equine.
- Provide qualified veterinary treatment in the case of injury or illness, and inform the Society of any serious injury or illness to the equine. In the event of the equine's death, a death certificate from a veterinary surgeon must be given to the Society.
- Ensure that the animal is adequately covered by third party insurance.
- Keep the equine at the premises that were inspected by the Society prior to placement, and not move the equine to other premises without prior inspection of the new premises and permission from the Society.
- Provide regular worming and routine vaccination against equine flu and tetanus. Ensure that feet are trimmed or shod regularly by a Registered Farrier.
- Not to breed from the equine.
- Not to use the equine, or permit the equine to be used, for hunting live quarry. Not to use the equine for hire or reward or for use by a third party.
- Notify the Gardai and the Society within 24 hours should the equine become lost, stolen or missing.
- Permit an authorised official of the Society to visit my premises from time to time to check the well being of the equine.
- Not to leave the equine without companionship for extended periods and not to tether it. The equine must have freedom to graze, to roll and to socialise.
- Allow the Society to repossess the equine if, in the Society's opinion, the terms of this agreement are not being adhered to.
- If Euthanasia is recommended by a veterinary surgeon, the Society must be contacted before this is done, unless delay would result in unnecessary suffering for the equine. If there is a question of choice, lethal injection is preferable to a humane killer.
